

Move-Out Cleaning Checklist

Thank you for your tenancy. We would like to ask that you take time to insure that your home is clean and ready for the next family. Prior to your occupancy, your home was professionally cleaned for your comfort; therefore we ask that you return it in similar condition. Tenants are responsible for complete house cleaning upon move-out. Tenants are not responsible for "normal wear and tear", although fees may be charged for excessive wear and tear, damage, improper or inadequate cleaning, or any damages arising from misuse, waste, or neglect to the property. Please review items below, clean as necessary, and notify your Property Manager of any problems or discrepancies as they arise.
